

# Nifty Napkin Holders

by Don McGown

## Assembly Instructions

**1.** Cut parts from leather, wood and masonite as shown.

**2.** Cement masonite part to outside with contact cement.

**3.** Dampen lining with water and cement to back of side assembly.

**4.** Adhere lining to side assembly and form around masonite with modeler.

**5.** Trim excess lining flush with outside with shears or knife as shown.

**6.** Round the top two corners with a knife or shears.

**7.** Punch holes for lacing or stitching.

**8.** Stitch or lace as desired.

**9.** Cement leather to bottom wood block as shown.

**10.** Trim excess leather flush with wood block.

**11.** Trim top and side edges with an edge beveler.

**12.** Slick top and side edges with the method of your choice.

**13.** Apply contact cement to sides of napkin holder as shown.

**14.** Adhere sides to edge of block as shown.

**15.** Secure sides to wood blocks with 3/4" decorative or brass nails.
